glum Attended With Great Excitement and Some Rioting-A Disaster in France.

New York, June 15.—[By the Associated Press. | The Herald's Curacoa (W. I.) correspondent telegraphs additional information as to Palacio's alleged flight. When the report of Palacio's flight became known the citizens began to cry out "Down with the ad-herents of the usurper!" "Let us free from prison our friends!" "Death to the rascally police!" In the hands of many citizens firearms appeared and shots were fired. Almost immediately the streets were filled with marching

The government police and soldiers made a feeble attempt to drive them back. There was some sharp firing for twenty minutes, during which time many persons were shot. The number of dead and wounded is not stated.

To add to the discomfiture of the Nationalists word has just been received from the tattle field that another terrific engagement has been fought between Crespo's followers and government troops a few leagues west of Caracas. As in other recent important engage-ments, the soldiers of Palacio were defeated with great slaughter. Straggiers from the routed army are coming into Caracas and spreading the spirit of panic everywhere.

atense Excitement all Over the Kingdon and Some Rioting. BRUSSELS, June 14 .- [By Cable and Associated Press. | Elections for members of the constituent assembly, composed of senators and representatives, sitting together to settle upon changes to be made in the constitution, have commenced in Belgium. Returns al-ready received show that the Clericals, who favor the government's suffrage policy, have reflected many members of the last Parliament, while the Liberals, who favor universal or manhood suffrage, were victorious in Liege and Ministers Bennaert, Bruin and De Burlet and all the party leaders were reëlected. Great excitement prevails at Liege, where rival demonstrations led to disturbances. In Brussels the streets were crowded and several free fights occurred. Disorders at Ath continue. The Cath-

Disorders at 4th continue. The Cath-olic Club is wrecked. A detachment of mounted police rode down the people, who offered stubborn resistance. Many saber wounds were inflicted. The mob tore up the street and pelted the gen-darmes with stones. Among the wounded is a magistrate. Forty-four Clericals and thirty Liber-

and the mob was finally dispersed by gendarmes. Large excited crowds gathered this evening in all towns in Belgium for the purpose of congratu-lating the successful candidates.

Associated Press. | An appalling accident occurred this morning on the River

Garonne near Blayo. The British steamer Petrolia, loaded with petro-leum, from Philadelphia, was struck by

lightning. A tremendous explosion fol-lowed, scattering the deck and upper

works in every direction, setting fire to the vessel and to the petroleum floating

on the water. This set fire to a number of other vessels on the river, mostly engaged in river and coasting trade, and they were burned to the water's edge. The Petrolia was destroyed and twenty

of the forty men composing her crew perished in the flames, The other twenty were rescued with difficulty, some of them badly burned, The lighters near the Petrolia sank in

> CHICAGO, June 14.—[By the Associated Press.] O. O. Stealy, Washington correspondent of the Louisville Courier-Journal, is in this city to attend the convention. In a dispatch to his paper tonight, he stated that the Cleve land cyclone here next week will sweep everything before it, and Cleveland will be nominated by acclamation be-fore roll call is half finished.

He concludes his dispatch as follows: "Since we cannot have John G. Carlisle for President this year, let us make him permanent president of the greatest Democratic convention that ever met in this country. He is the man to answer McKinley's Minneapolis speech, and will make a tariff reform argument that will ring from one end of the country to the other."

WICHITA, (Kan.,) June 14 .- | By the the Farmers' Alliance State Convention which meets tomorrow to nominate full State ticket, are discussing only one question: "Shall the Farmers' Al-liance fuse with the Democrats." At the recent conference of Farmers' Al-liance and Democratic leaders in Kan-sas City, a plan of fusion was arranged. A portion of the plan was executed to-day at Emporia, when the Farmers' Alliance nominated E. V. Whatton for Congress, an ex-Democrat whom the

without Democratic aid they cannot hope for success. It looks tonight as if the fusion idea would prevail. Jerry Simpson's renomination for Congress this afternoon will probably kill his gubernatorial boom. EMPORIA (Kan.,) June 14.—Congress-man John G. Ofis of the Fourth Kansas

District was defeated for renomination today by E. V. Wharton of Yates Center. Wharton was a Democrat before he joined the Alliance.

WICHITA (Kab.,) June 14.—The Farmwhen a dam., June 12.—Ine Farmers' Alliance Convention of this Congress district this afternoon renominated Jerry Simpson by acclamation, it is believed Simpson will be indorsed by the Democrats of the district.

LITTLE ROCK (Ark...) June 14.—The
Democratic State convention to elect delegates to Chicago and nominate a State ticket, met at noon. W. C. Bra

ley was chosen temporary chairman, and recess was taken. Convention reassembled at 3 o'clock and selected E. C. Bridewell of Hempand selected E. C. Bridewell of Hempstead county, permament chairman. In a speech he urged that an uninstructed delegation be sent to Chicago. The following ticket was nominated: Governor, W. M. Fishback; Attorney-General, K. B. Clarke; Secretary of State, P. B. Armistead; Auditor, C. B. Mills; Commissioner, of Agriculture, John L. Adams; Superintendent of Public Instruction, J. H. Shinn; Treasurer, R. N. Morrow; Associate Justice of the Supreme Court, W. E. Hemingway.

The convention took a recess after the nominations were made, until 8:80,

the nominations were made, until 8:30, at which time delegates-at-large to the Chicago convention were elected. Minneapolis Makes a Bid.
Minneapolis (Minn.,) June 14.—The Citizens' Executive Committee of the Republican National Convention today sent the following telegram to the Citizens' Committee of the Democratic National Convention at Chicago:

We have heard with regret of the great disaster that has befällen your convention hail. Fully sympathizing with the public-spirited citizens of Chicago we teader you, free of charge, our great convention hall and accommodations for 100,000 people. A telegram of similar import was sent to Hon. Calvin S. Brice, Chairman of the Democratic National Committee, at

New York. Chicago Ratifies.
Chicago, June 14.—A ratification meeting was held at the Auditorium last night under the auspices of the Republican clubs. The great building was completely filled with people, and much enthusiasm was displayed. Addresses were delivered by Gov. McKinley, John M. Thurston and others. A message was received from President Harrison thanking the clubs for telegrams of congratulation, and a telegram was sent to Blaine conveying loving regards.

Florida Prolifeitionists. PALATEA (Fla.,) June 14.—The Florida Prohibitionists held their State convention today. National electors were nominated and delegates chosen to the national convention at Cincin nati. The Executive Committee was authorized to place a State ticket in the field. The piatform, among other things, recommends the circulation of gold, silver and treasury notes, without the intervention of national banks.

The Nevada Silver Party. WINNEMUCCA (Nev.,) June 14.—The Executive Committee of the silver clubs of Nevada issued a call today for a State convention to be held in Reno June 24, for the purpose of nominating three Presidential electors pledged to vote only for a free coinage candidate.

The sight man, gaudily and indecently dressed, plying her nefarious traffic. The sight was such that the ladies in the car had turned their eyes the other way until the plague spot was passed. The doctor said that he was not talking moralty or religion, just at this time, but he was talking from a business standpoint. Every tourist that came into this city saw this thing, and it was doing a great mjury to every piece of property in the city, as people will not settle in a city where such evils are allowed to openly wist. He appealed to the board to xist. He appealed to the board to take steps to remove this glaring evil, if possible, and if they cannot be removed, that they be so harrassed that they will be compelled to close their terms.

THE OLD MISSIONS. teps for Their Preservation Being Taken
-Meeting Last Night.

A large number of representative people of the city, prominent in business, professional and social circles, gathered at the Woman's Exchange Hall in the Potomac Block last night to discuss the matter of the preservation of the missions. Prof. Ira More acted as Father Adam, S. P. Hunt, the architect, and Miss T. L. Kelso, presenting, in various aspects, the need of this philanthropic work. The interest of people all over the State seems to be

thoroughly aroused on this subject.

The proprietors of the Overland Monthly have volunteered to take the matter in charge in the northern part of the State and open their columns freely to matter relative to it.

It is designed to form an association for the preservation of the missions.

freely to matter relative to it.

It is designed to form an association for the preservation of the missions, the members of which shall be entitled to special rates on all excursions to the missions, notification and invitation to the association; the membership fee entitling one to all these privileges to be \$1. It is proposed to celebrate the founding days of the various missions in this part of the State by excursions on corresponding dates. A glance at Bancroft's reveals the information that the mission of San Diego was founded July 16, 1769, to be destroyed in 1775 and restablished October 17 the following year. The mission of San Gabriel was sounded september 8, 1771, and that of San Juan Capistrano November 1, 1775. It would be a pleasant and appropriate thing for this new Nation, as it were, to journey on these anniversaries to the spot where, years ago, the good pádres donned their alb and stole and on bended knee chanted the venite creator spiritus, planting and blessing the cross and sprinkling surrounding fields with holy water, while the mis-

sion bells pealed out their first summons to prayer.

This mission association also proposes to adopt a seal and have it copyrighted. Official handbooks containing, valuable and authentic information about the missions will be issued, stamped with this seal and sold as souvenirs. Photographs of the missions will be similarly stamped and placed on sale with these handbooks at each of the missions, thus giving tourists an opportunity to contriband placed on sale with these handbooks at each of the missions, thus giving tourists an opportunity to contribne to the fund for the preservation of
the old ruins and at the same time secure valuable and appropriate souvenirs. All the profit from these sales is
to be turned into the fund for the preservation of the missions.

Dr. M. H. Alter furnished the picturesque part of the entertainment last
night with stereopticon views of the
missions.

Books were opened for membership and a large number of names were

signed. signed.

A member of the San Francisco Art
Club was present and stated that this
club would cooperate and donate liberally. The First National Bank will
be made treasurer of the fund, the creation of which was so well begun last evening.

WEATHER AND CROPS.

The Weekly Bulletin Issued by the Weather Bureau. Following is the regular weekly crop bulletin issued by the weather bureau for Southern California for the week ending June 18:

onding June 18:

Ventura county—Hueneme: The high winds of the past week will cause some beans to be replanted; corn is looking well; heading is in full operation.

Los Angeles county—Lancastert Rain fell on the 7th amounting to one-fourth to one-half inch, according to locality. Considerable hay was wet, but dried in most cases before being much injured; growing grain derived some benefit from the rain. Rodeo de los Aguas Ranch: Sugar beets are taking in sugar very fast; farmers are hopeful of a factory by next year, as beef raising is a success in the Cahuenga Valley. Barley is very plump; corn is growing finely. Los Angeles city: The weather was generally fair during the week, but cooler than the seasonal average. High westerly winds prevailed on the 9th, causing some injury to fruit. Duarte: Crops are looking-well. A trace of rain followed by strong southwest winds blew off some apricots on the 9th. The weather has been clear and warm.

San Bernardino county—South Riverside:

the 9th. The weather has been clear and warm.

San Bernardino county—South Riverside: Hay and grain is being saved in good shape. Fruit is doing finely.

Orange county—Anaheim; The light shower of rain the fore part of last week, nor the high wind following did any damage. Haying is completed and heading now commences.

commences.

San Diego county—Vineland: Lightrain fell on the 9th, doing no damage. Late wheat has a light touch of rust, but the grain is too far advanced to be injured. Headers will commence on barley hext week. No drying winds have occurred. National City: Crops are growing and looking well. Ripe home-grown apricots are in the market.

RAILROAD AFFAIRS.

The Low Second-class Rate to California Points.

The reduction of second-class passenger fares to \$14.80 from Kansas City to California points, inaugurated by the being the date set in the ninety-days notice issued by President Manvel last March. As the cut is to be in westbound business only no official notice of it has been issued here, and there is nothing to prevent the company's re-scinding the action, though if it does become effective the rate cannot then be increased without the ten days' notice required by the interstate commerce law The Southern Pacific passenger officials are as much in the dark as any one, and do not even know what course will be pursued by that company to meet the cut. It should be borne in mind by readers that this low rate applies only to passengers coming to California, the rate eastbound remaining at the former tariff, \$40 to Kansas City.

SCRAP HEAP. Commissioner Lewis replied that if Superintendent Muir knew anything of this sort was going on it would be very quickly stopped.

It was then suggested that at least the signs can be removed from the door ways and the windows kept closed as was done in San Francisco.

After some general discussion, in which the gentlemen appealed to the board to at once take some steps for mitigating and suppressing the evil for the best interests of the city, the committee rose, and the board reconvened, when the usual talk on the social evil took place, the same ground that has been gone over heretofore being again talked over. The commissioners were unanimously in favor of reverging the statistics and addition to the information printed in this paper yesterday, conveyed in a press dispatch from San Francisco concerning the San Francisco concerning the San Francisco and Atlantic Railroad scheme, the Bulletin says that two soriginally intended to go first to Kramer to connect with the Atchison and not to go to Los Angeles, but the prospect of a large local trade in Southern California makes Los Angeles the present terminus as projected." If for the best interests of the city, the committee rose, and the board reconvened, when the usual talk on the social evil took place, the same ground that has been gone over heretofore being again talked over. OFFICE OF THE TIMES.

LOS ANGELES JUNE 14, 1892.

A dispatch from New York gives the following review of the market for California products: "In canned goods an indifferent attitude continues toward the new pack. The large surplus of good quality of the last crop promotes this feeling among many buyers who have secured supplies from lines on spot and ship at the favorable rates 1 tely quoted. This condition is likely to prevail until the Eastern possibilities of production are more definite in competing fruit. Bealdes the unusual headings of England are against any chance of a very sudden call for repl. nishment. They may months beyond its close. have a hard time dodging tornadoes and pulling through a cold winter, but the owners probably think that they may as well become acclimated first as last.

A NEWSPAPER correspondent who recently visited the fruit-growing region of the Sacramento valley and had numerous talks with orchardists in Va caville, Napa, Penryn, and St. Helena, says that the apricot, peach, plum and prune crops there are less than one half a yield, and in some localities about one-third of a full yield. The men who grow first-class early fruit, suitable for shipping in the green state to the Eastern markets, are getting \$45 and \$50 a ton for their best crops. The later apricots and peaches are be ing contracted for at \$20 and \$25 a ton, but the growers are not anxious to sell at those prices, because they have reason to believe the market will improve as the season advances and the fruit-dealers find how short the general fruit crops are in California and the

In a paper read at the recent session of the Farmers' Institute, W. E. Collins, Horticultural Commissioner, thus hits off the subject of the importation of fruit pests in a proper way. It is com mended to the consideration of those Eastern nurserymen who are foolishly talking about boycotting California because we quarantine their trees:

trees:
We do not want their yellows or rosette!
We do not want their pear midge?
We do not want their curculo, nor anything else that is theirs, in the same line,
that we have not already got. We have thing eise that is theirs, in the same the that we have not already got. We have the codlin moth through the importation and sale of their apples, and that is enough Break down our quarantine, and in fivyears or less we will have all the others as sure as we are here assembled, i fortunately we have not already got them Ve must go still farther. The mains danger. If Oregon and Washingto to not erect a quarantine barrier as effect als on terect a quarantine barrier as elect-ual as our own, we must quarantine against them also. I am now in correspondence with leading horticulturalists in those States, and hope to be able to induce them to take up the cudgel in self-defense. It were better not to plant a tree than to plant one with the sure knowledge that the

ree planted will not only not reach frui-tion, but carry disaster and ruin to our

THE "infamous McKinley bill" is still retting in its deadly work. Within a month a Scotch-Irish firm, employing from 1000 to 1500 hands, has arranged to transplant its factory to that Hill and Tammany are ready to America and its new machinery is now being made at Paterson, N. J. During Prophet. First we had a report that the same period an English firm of carpet manufacturers has moved to the United States because American flax produces the best material for the pody of the carpet. During the same time a wine factory employing from 200 to 300 hands has been established in New York and will use American flax. Others will rapidly follow, and thus an industry which pays the farmer a good rice for straw formerly thrown away. that will cause the payment of \$20,-300,000 a year to American workmen which sum has hitherto gone to Europe and which will make a large demand for American machinery, is one of the ef-lects of that "monstrous oppressive" piece of legislation, the McKinley bill.

That was a most vigorous arraigntempts to show the mollification of nent of the California World's Fair Commission telegraphed from Chicago the last remaining obstacles to Cleve the other day. It was, in effect, that land's nomination. How successful the our commissioners fail to rise to "the true exigencies of the situation, and are until the convention assembles and may gnoring all of the general displays and not develop until it gets to balloting. concentrating their energies on the While it is supposed that Hill's chances for the nomination are irrespecial California department. Thus, hev have declined to take a hand in trievably ruined, he may have more equipping the departments of forestry and mining, and it is not known ho nany others. It is intimated that the nanagement is disgusted, and will reserve no space for us in the great buildngs except that in the department of igriculture, which has already been ac epted. The dispatch referred to says hat a thorough lack of informa there is to be any success for the Democracy. Hill is too shrewd a poliion is exhibited by every communication sent in by the California Commission tician to abandon this advantage simply and "it is a great pity that men with for the good of the party. While he is proud to claim that he is a Democrat, some knowledge of the work to be performed were not secured by this grea State to look out for the welfare of its fact that he is Hill. He will not give itizens." It may be that our commis up the key to the situation unless it is purchased from him at a good round slor is realizing that, in taking five acres in the grounds to fill, they have litten off a rather large mouthful, and that they had better address themselves to the mastication of that before the site off any more. last time tonight.

On Friday evening an elaborate production of The Police Patrol, Scott Marble's dramatic picture of metropolitan police life, will be given at the operahouse. The play, which is said to be based upon the famous Snell murder, which bamed the police for so long, a few years ago, contains many sensational and realistic scenes, the most exciting of which is one showing the many sensational and realistic scenes, the most exciting of which is one showing the interior of a police patrol barn with the horses standing in their stalls, the wagon in place and everything in readiness for the alarm. When the bell sounds the horses dash under the swinging harness, are hitched and off the stage in less than five seconds. The cast includes many names of promi-nence and should be a clever one.

POLITICAL POINTS

Henry Watterson will deliver a lecture on June 20 under the auspices of the Chi-cago Press Club, on "Politics, Money and Morals."

A Buffalo Democratic paper says: "It was the Democratic censcience that spoke at Syracuse." This is important. The people will be glad to believe that the New York Democracy still has a conscience.

The Pacific Coast States and Territories expect to see the Republican party stand squarely by the silver plank in its platform. It is a straightforward declaration in favor of bimetallism, and the country must adhere to it.—[Ventura Free Press.] The people know that success means a continuation of the brave and honest administration of the last three years. Success in Nozember means a Congress that will keep the McKinley tariff in force; one that will deal with foreign nations on the high plane of justice to all; one that will protect Americans in their just rights wherever they may go; one that will

wherever they may go; one that will fortify our coasts and harbors, build ships of war, and adopt other measures to pro-mote the welfare of the people. There is no Republican who may not work for these ends.—San Francisco Call.

ends.—San Francisco Call.

Blaine has for the third and last time paid the penalty of being too able a man to be entrusted with the office of President. But his impress upon the policy and politics of this country is too deep to be effaced by the loss of it. History will assign him a niche among the foremost statesmen of America and of the world. The failure at Minneapolis will be foregotten in a few America and of the world. The failure at Minneapolis will be forgotten in a few months, and with the disappearance of the bitterness both among his opponents and his friends, Blaine's brilliant achievements for his country will stand forth in stronger light than ever.—[Pasadena Star.

We need a city hospital, and some day it will be built, but first of all things let us build up our young men to love this country. Educate them to look forward to the Fourth of July as the day upon which to shoot bombs, firstrackers, and swing the "merry-go-round" of pleasure—whoop it np—everybody get happy—and everybody sing "Yankee Doo. dle" and "Hail Columbia" and teach them when the day closes to get down on their knees and thank a just God for liberating us from the hand ef John Buil and oppression. Ohio's Ex-Governor Talks About the Minneapolis Convention.

The President Invelghed Against, for Hi Manipulation of Federal Office-Holders to Pacet His Re-nomination.

[Special to the Exam CINCINNATI, June 12 .- The Commer cial Gazette this morning prints an in terview with ex-Gov. J. B. Foraker, ob tained on the train while returning from Minneapolis, in which the ex-gov ernor says, among other things, the fol-lowing about the convention;

"The Blaine people in conference as sembled by a unanimous vote asked me to place him in nomination, and I expected to do so until Friday morning when, learning that the friends of Gov Mckinley intended, with his sanction and approval, to place him in nomina tion before the convention by voting for him, I concluded that it was my duty to make Ohio solid in his support.

"There were a number of reasons for this. After the test vote taken Thurs-day night on the Alabama case it was apparent that in a streight fight be-tween Blaine and Harrison the latter would be sustained." LUKEWARM SUPPORT.

"Did you think it was just the thing for McKinley to become a candidate un

der the circumstances?"
"On that question I have nothing to say. He and bis friends settled that among themselves. I was not consulted any further than to be asked whether or not I would support him. I cheer fully did so, yet with much regret that it involved the necessity of withdraw-ing my support from Blaine and giving up the privilege and honor, which I ap-preciated very highly, of placing him in nomination. But I am always for the

in nomination. But I am always for the Ohio man, no matter what my personal preference may he."

"How do you account for the strength of President Harrison's support?"

"Oh, that is easily enough accounted for. Mr. Blaine, by his letter of last February, took himself out of consideration before the selection of delegates commenced, and he was regarded as entirely out of the race until after all the delegates had been chosen. delegates had been chosen. One hundred and forty-six delegate ere office-holders, about one sixth of the whole number. The Southern States, nearly all of them hopelessly Democratic, sent practically solid Harrison delegations. These were worked up by the office-holders. The people had practically nothing to do with it.

"The office-holders of the Southern States did the business." It was a one-site of the southern the states did the business.

States did the business. It was a ques-tion of bread and butter with them and for that reason they were not open to argument and were indifferent to the preference of the Republicans from the States that must be relied upon for success in November.

imposing one and was participated in by the entire naval forces at Mare Island. Services were held at the naval hos pital. The bodies were then loaded or gun carriages, all in plain coffins, which

were draped with flags and covered with floral emblems of every variety. The funeral was directed by Lieut. Swinburne assisted by Lieuts. Laird and Hughes. Admiral John Irwin and staff were present. The procession was escorted by the Marine Corps Band and buglers. The bodies of the dead followed. Then came in regular order the Boston's crew as mourners, the entire force from the receiving ship Independence, and citi-zens and ladies in carriages, there be-ing not less than 1000 people in line. The march to the cemetery was mournful. Graves had been dug all in

Quijada, the Train-wrecker, or Trial.

Why He Placed Obstructions on the outhern Pacific Tracks.

His Flendish Scheme to "Get Even" With a Conductor.

An Alleged Forged Note in Contr emple Street Grade Case—The Sar Diego Bank Cashler Arraigned General Court Notes.

Francisco Quijada, a repulsive-look-lng young Mexican, appeared before Judge McKinley in Department Six yes-terday morning for trial upon the charge of having placed a number of ties upon the Southern Pacific track near Burbank on the evening of April last. Assistant District Attorney acComas represented the prosecution, while J. B. Dunlap, Esq., appeared for

The jurors selected to try the case were: J. Ball, R. J. Bayley, W. S. Brig-ham, A. H. Cogswell, I. B. Dolley, C. E. Fout, J. Langdon, T. A. McCormick, J. L. Miller, J. M. Mitchell, O. E. Roberts

and J. K. Swanfelt.

The following witnesses were called for the prosecution during the day's session: Robert Robertson, H. C. Powell, Louis Cardwell, B. Camillo, Will Smith, P. L. Ducasse and Charles A.

Alexander.

Their testimony was to the effect that on April 4 last Quijada informed Station Agent Powell at Burbank, presumably with the hope of reward, that he had seen some boys placing ties on the track near by, and that he had asked them what they were doing it for, but one of them threatened to kill him and the ran away. Two trains one a fraight them what they were doing it for, but one of them threatened to kill him and he ran away. Two trains, one a freight and the other the San Francisco pasinger, being due about that time, fivell had no time to investigate, but flyged the former and told Engineer Roertson of the obstruction, which was found to consist of seven ties piled upon the track, and was subsequently tlered away by the trainmen. Upon investigation the crime was clearly traced to Quijada, who, while a prisoner in he County Jail a waiting trial, confessed that he did it in order to get even wit Conductor Fred. Bayliss, because that official had put him off the train hear Camulos when he was stealing a ride about eighteen months ago. This confession, to the introduction of which the defense vigorously objected, was obtained in a very peculiar manner. Quijada's cell-mate in the jail, Juan Velar, questioned the defendant about the matter one day, but Quijada protested his innocence and refused to discuss the subject. Finally, however, Vejar picked ap an old deck of cards with which they had been playing, and, telling Quijada that the 'boys' in the jail had a method of finding out whether or not a man was guilty by means of the cards, asked Quijada to a suffle them. The latter did so and Vejar told him that if a knave came but immediately after three kings had been dealt, three times in succession,

Quijada agreed to the proposition and o his astonishment the cards were dealt to his astonishment the cards were dealt just as Vejar had said, three times in succession, although he shuffled them well for himself before each deal. He then admitted the whole affair, and as the conversation had been overheard by Deputy Sheriff Charley Alexander and P. L. Ducasse, the defendant was neatly trapped.

nnd P. L. Dicasse, the defendant was nearly trapped.

Quijada was called to the witness stand on his own behalf and admitted having made the confession, but swore that it was false and that he had made it to rid himself of Vejar's importuni-

AN ALLEGED FORGED NOTE IN CONTROVERSY

Judge Clark and a jury were occupied yesterday in the trial of the case of J. P. Taggert vs. J. D. Bosch, an action to recover \$3210 alleged to be due on a note dated August 8, 1890, at one year, bearing interest at the rate of 7 per

The plaintiff alleged that the note was given in payment of a sixth interest in a piece of mining property, for which he received a deed, but Bosch, who is at present in Germany, claims that he never signed the note and that the signature attached thereto is a for-

The case will be resumed today.

ADJUDGED INSANE. John F. Gibson, a native of Indiana 82 years of age, and a rubber stamp maker by occupation, was taked before Judge Van Dyke yesterday for examination as to his mental condition, and, in accordance with the recommendation of Drs. Cochran and Reed, the examination of the second of the ing physicians, the patient was duly adjudged insane and committed to the hate asylum at Stockton. Gibson's isfortune is attributed to the excessive

A youth named O. P. Burk was also A youth named O. F. But was also examined in the same court, but it being shown that he was not insane, and that his relatives wished to send him to an asylum to cure him of the cocaine habit, he was discharged. O'BRIEN ARRAIGNED.

In the United States District Court In the United States District Court yesterday morning Judge Ross arraigned Henry E. O'Brien, formerly cashier of the defunct California National Bank of San Diego, upon the charge of having made false entries upon the books of said corporation. The defendant's counsel, W. J. Hunsaker, Esq., presented a demurrer to the indictment, which, however, was overruled by the Court. O'Brien thereupon entered his plea of not guilty, and the case was passed to be set.

ALLOWED TO. COMPROMISE.

ALLOWED TO COMPROMISE. Judge Ross yesterday morning heard the petition of Receiver F. N. Pauley, of the California National Bank of San Diego, for leave to compromise a debt of \$1684.10 owed by John Dillingham of \$1684.10 owed by John Dillingnam on two notes, by accepting his tender of a deed to 15.445 acres of land in Sorento, Teralto and San Diego, and ten shares of the capital stock of the Marine Rallway and Dry Dock Company. It being shown that the debtor was insolvent, the Court granted the restition.

MADE A SOLE TRADER. Judge Wade yesterday heard and granted the application of Mrs. Sallie E. Adams, for leave to become a sole trader, in order that she may support herself and husband, John F. Adams, who by reason of his drunkeness and general shiftlessness is incapacitated from making a living for himself and her. She declared that the reason she did not seek a divorce is that she fears her husband would cause her more annoyance after she obtained it than he did now.

Millard N. Sheldon filed an affidavit in the case of M. N. Avery et al. vs. C. H. Wilkins yesterday afternoon, set-

ting forth that he was the agent for the plaintiff Avery, the purchaser of the property involved, and that he had presented a Sheriff's deed to the property to William Ridge, alias Charles Manning, who was in possession, but that the latter refused to turn it over to him; whereupon Judge Wade issued awrit of assistance directing the Sheriff to put Avery in possession, and defend and maintain him in said possession.

TEMPLE STREET GRADE CASE.

In Department five yesterday aftertoon the trial of the Temple street noon the trial of the Temple street grade case was concluded, in so far as the taking of testimony is concerned, and the jury was excused until Thurs-day next, when the matter will be ar-gued. The Court, however, proceeded with the trial of those cases in which the defendants waived a jury, and will resume the hearing today. resume the hearing today.

Court Notes.

A BIRTHDAY.

Last Saturday afternoon Master Warrie, the little son of F. W. Wood, received his young friends to celebrate the 9th birthday of his cousin, Miss Virginia Eugenia Brisac of San Francisco. About twenty-five children en-joyed the hospitality of the pleasant home on Angelina street. The entire lower floor was given up to games and play-tailless donkeys, nine-pins, ring At 5 o'clock the children rere gathered in line and marched to music along two halls and up two flights of stairs to the attic, which was gaily decorated with yards and yards of the patriotic colors. There they

of the patriotic colors. There they found awaiting them all those things deart of the childish palate; and, best of all, served on small tables, just like a "grown-up party."

After the supper the grown folks, as well as the children, were delighted with some fine magic lantern pictures. Many of the slides were made by Mrs. Wood, who is an adept in amateur photography; and these were especially pleasing when familiar faces and figures — playmates and triends, "snapped" in sorts of situations—were thrown ings.

#### THE WORLD'S FAIR.

Cause of the Delay in Sending in Applications for Space.

"I see that the department at Chi-cago look upon California's exhibit in the department buildings as likely to be a failure," said a Times reporter to a representative of the Southern California World's Fair Association yes-

MSO I see, but their saying so does not make it so. As I understand it, the State Commission has little, or nothing, to do with making applications for competitive exhibits in the department buildings. When our organization was first started, we entered into correspondence with the department at Chicago relative to the manner in which exhibits were to be made in the which exhibits were to be made in the different departments, and were getting arrangements fairly under way when we were informed that all applications for space within the different buildings would have to pass through the office of the State Commission, and that proper blanks would be furnished for making such applications. blanks would be furnished for making such applications. Since then we have been carrying on a correspondence with the board, sending our applications through them, and supposed that the applications had been duly forwarded to the department, and to my certain knowledge space in the art department applied for by exhibitors within this city amounts to 300 square feet, in the horticultural department 685 square feet, in the manufacturing department 500 feeting reported in favor of accepting the manufacturing department 500 feeting reported in favor of accepting the manufacturing department 500 feeting reported in favor of accepting the manufacturing department 500 feeting reported in favor of accepting the manufacturing department 500 feeting reported in favor of accepting the first properties of the first properties are the first properties of the first properties are the first properties of the first properties are the first properti in the manufacturing department 500 square feet, in the manufacturing department 500 square feet. This represents only a small portion of the applications sent, as each county organization mails their applications direct to San Francisco without referring it to the association. The only exhibits made in the depart. ment buildings so far from this southern country have been of a competitive nature. As the expense of such exhibits have to be borne by the exhibitors themselves it is not expected that a large number will willingly incur the expense necessary. As applications for space in the department buildings have to be in by the first of July the association appointed a committee at the last meeting to make an estimate of the amount of space that would probably be required in the department buildings from each county. buildings from each county.

This committee meets in the Chamber of Commerce rooms, Monday, the 20th, and will compare notes and figure up what they think is absolutely necessary for making such exhibits, and will make application for the space in blank and secure the exhibitors afterward, thus enabling the doubtful ones to make up their minds as to the amount of space they will require, as their products near maturity. There is not a citrus district in the country but a require the security of the country that the country is not a citrus. was to apply as I stated. When these applications are forwarded, probably the department will change their minds in reference to the southern part of California at least. When it comes to making applications in the forestry department, we are not in it to any great extent, although we will apply for a small space, and exhibit afteen varieties of growing gum trees, and sections of three-year-old gums, as well as sections of walnut, are not in it to any great extent, although we will apply for a small space, and exhibit fifteen varieties of growing gom trees, and sections of three-year-old gums, as well as sections of walnut, orange and lemon trees. When it comes to the out-door space, we have every reason to believe that we will fill all the space that we can get as the all the space that we can get, as the number of trees, plants and shrubs that are being prepared run up into the neighborhood of 2000. We have just received word from San Bernardino county that she will put in from twenty-five to forty first-class, crange trees.

printed information relative to the rules and regulations governing the different departments. In fact we are just now in receipt of matter that we should have received three months ago. There has been no list of awards furnished us; nor have we any instructions as to the amount of any one production necessary to be entered for an award; thus, if a farmer wants to know now much wheat or how many potatoes to furnish we can only guess at the quantity. We have blank applications on hand, and have repeatedly advertised the same, which can be had by any party wishing to make an exhibit either in the State or department buildings. As these blanks can only be used up to the list of July, parties intending to be able to a carbon to the list of July, parties intending to be able to a carbon to the last of July, parties intending to be able to a carbon to the carbon t the 1st of July, parties intending to

make an exhibit must necessarily make immediate use of them. I guess that when the fair is-opened Southern California will be there in good shape."

Applications from Los Angeles for space is the State building are now in, and if we get the 12 000 sonare feet. and if we get the 12,000 square feet applied for and all the counties stand in flaey will see we are not so much of a failure as they imagine.

6520 ACRES

Offered by the Southern California Land Company, 230 North Main Street, adjoining First National Bank.

1630 Shares at \$100 Each, In Installments of \$5.00 per Month Without Interest.

Not a Land Distribution, but An Investment of Money

when hundred and thirty shares at \$100 each will buy the Fowler Ranch of \$30 acres with the present improvements and the prospective improvements to be made by the present owners at a cost to them of \$80,000. This splendid property is situated on the border line of Tulare and Kern counties, four filles west of the Valley Road of the Southern Pacific Railroad, and four miles sorth of the branch line to the oil wells, and twelve miles west of the present line to San Francisco. A survey of the Santa Fe line has been made through the western portion of this tract.

The best fruit and vine land in the State. In the heart of the artesian belt. To be subdivived into 40-acretracts, including a town site, with artesian wells and an irrigating dural of twelve miles, brand artenues with trees, and water for converance to each subdivision. These improvements to be paid for by the present owners, and are included at the contract of sale to this company. For these improvements \$50,000 is set aside. This perfect and undoubted.

Prospectus.

We are soliciting subscriptions for shares in an incorporation to be organized for the purpose of buying from the present owners the Fowier Ranch, containing 622 acres, situate on the border line of Thiare and Kern counties, for \$25 per acre, with its present improvements and with \$80,000 of improvements to be made by the owners and included in the price of \$25 per acre, as stated. This is not a land distribution, but an incestment of money and profits, by dividing the tract into \$40 acre subdivis-ons, and after the improvements are made, selling at a future period at \$100 or more per acre. There will be 1600 shares in the corporation at \$100 each, to be paid for in \$6 monthly installiments without interest. On the sixth payment the subscribers will incorporate, will elect their officers, and the trustee they man appoint will receive a deed or \$650 acres, in herrow clear of all indumbrances, with the certificate of title attached of the Abstract and Title insurance Company of Los Angeles, to be delivered to the corporation when the purchase money is paid. The \$30,000 proposed improvements guaranteed by a deposit in bank of that amount, to be paid out to the contractors on certified vouchers, is they progress with the work.

Description of the Property. The land is a rich, black loam, and as known as the Fewler Ranch. It was purcha nany years ago by the late Senator Tem Fowler of Tulare, when he had the opportunity obtaining the cream of Tulare and Kern counties. It is in the center of the artest ruit and affairfa belt; has upon it now a sample artesian well flowing 800,000 gallons, as in the immediate yicinity of the largest flowing wells in the State.

The Present Price and What the Investment Will Pay.

The low rate of the purchase, \$25 per acre, with all the present and the projected im provements herein recited, made and g aid for by the present owners, at a cost of \$30,000 enables us to guarantee at the lowest rite of sale in the tuture, say 5:00 per acre within g e years, an interest of 5 per cost a month on each share of \$100 from the date of sale scription. This is no exaggerated statement, but is borne out by the plain figures submitted, and also accords with the opinion and unbiased judgment of the best experts in Southern and Northern California.

Improvements Already Made and To Be Made.

This tract has one section already fenced, a colony house, the present flowing well large reservoir, etc. The improvements to be made by the present owners will consist of an irrigating canal of 12-miles, six more artesian wells as feeders, survey and division into the arretracts, survey and laying out of the town of Colonna, broad avenues through the entire property planted with trees, etc., etc. How Improvements are Guaranteed to Stockholders.

\$20,000 of the purchase money will not be paid over to the present owners but will be set aside for the improvements stated, and deposited daily, in proportion to the subscriptions, in the name of the "Columbia Colony Improvement; Fund," to be drawn from bank or titlled youchers given to the contractors as they proseed with the improvements. In regard to the incressity for a town site upon this truct, every one will admit that a colony embracing 150 farms will demand and build upa prosperous town. The estimated price of one-quartees fare loby. So each, will doubtless be the exceeded as also are made. For this purpose 250 acres will be surveyed and laid out in one-quarter acre lots. Topography of the Tract.

The whole tract of 6500 acres is level, not a hill upon it; the fall of the land is sufficient for drainage and admirably adapted for the conveyance of water by canal, as there is nothing to obstruct its course.

How the 5 per cent. per Month on Each \$100 is to be Earned for the Five Years.

Many well-known citizens thoroughly versed in the capabilities of lands in Southerr California double the estimate that we here set forth of 8100 per acre within five years and assert that at the and of that time this splencial body of land, improved as proposed with water conveyed to delete tract, will command readily and quickly \$200 per acre. Bu we place it at the low-figure named, \$100 per acre, and any larger amount that it may be sold for will increase the percentage which we claim it will earn at our figures.

682) acres at 825 per acre, with the improvements included. \$163,000 00 Interest at 5 per cent. per month from commencement of subscription to the end of the five years on 1630 spares. 459,000 00 8032,000 00

8674,000 00

This would leave a surplus of \$22,000 after paying the interest of 5 per cent. per month this surplus would meet affectpenses for the full term: salary of superintendent taxes expenses attending sales and any extra improvements that the trustees might deer

Opinions of Prominent Citizens.

This prospectus, before publication, was submitted to several conservative and prominent citizens of Los Anegles. They all, without an exception, placed the sales of this property at the end of hey years at far more than our estimate of \$100 per acre, thus giving each shareholder a larger interest than 5 per cent, per month on his investment.

Messus. Easton & Eldridge of San Francisco, so well known for twenty years past and at the present time as a prominent and reliable real estate firm, say over their own signature, in stating the value of the Fowler ranch, as follows:

"There is no land in the State with the possibilities of this tract. The soil is a very rich, black alluvial logan, mixed with vegetable mold, in character similar to that on Union and Robert's a lainds in the San Joaquin Biver, near Stockton, and equally capable of producing fifty to serenty-five bushels of grain to the acre."

As fruit and vineya of land it has no superior. Prunes, figs. pears, fruit of every kind and grapes of the linest varieties can be grown with a wonderful product to the acre. It is also particularly adapted to the raisin grape. The climate is unequaled. Eving ten miles south of ulare Lake and universe feet above it, it has cool and refreshing nights at all seasons, and no intense heat in the summer. The present owners have had seventy mon employed on the property at one time, and no case of even ordinary sickness occurred during the whole period.

The Southern California Land Company of Los Angeles now places this tract before the public and strongly recommends it for the investment of large corol small amounts. This company has conducted in the past seven years many large successful land deals in Los Angeles. Its record les without reproach, and its references include the leading citizens of Southern California. Its clients have numbered hundreds of investors in the Childs' tract. Urmston tract City Center tract, etc. Its dealines have amounted to hundreds of thousands of dollars and it stands today one of the most popular firms in this section of the state.

The board elected the following officers: President, A. G. Throop; vice-president, Rev. Dr. Conger; treasurer, P. M. Green; secretary, L. W. Andrews. An Executive Committee composed of Mr. Throop, Dr. Conger, Mrs. Carr, Mr. Arthur and Mr. Keyes was thosen, which, with Mr. Scoville's name added to the list, constitutes the Building Committee that will have charge of the construction of the manual training school, plans for which were accepted. lory work in all the departments. Sixtytve scholars have been in regular attendince.

Father Throop presented the board with
i deed for the valuable property on the
southeast corner of Chestnut street and
fair Oaks avenue, where the manual training school is to be erected. It has a frontige of 140 feet and a depth of 110½ feet.

Prof. C. H. Keyes of Riverside submitted
if ormal letter of acceptance of the office
of president of the university, which was
lendered him several months ago. A brief
iography of Mr. Keyes will not be inappropriate at this time. He was born at
Banfield Wise, in 1858. He was educated
in the public and private schools of his naive State, and in 1878 was graduated
from St. John's College. He immediately
pegan the work of teaching and the special
study of physics. He was sono called to the
principalship of the River Falls High school
and two years later he was chosen to a professorship in the normal school. But so
serious was the protest of the citizens
against his severing his connection with the
public school, and a year later so urgent
was the appeal they made to the State
authorities, that at his own request he was
released to reassume the management of the
public school. In 1884 he was called to
the superintendency of the schools of the
city of Janesville. In 1889 he resigned to
take up the practice of law. At the end of
a year of eminent success the fallure of the
health of his wife and youngest child
prompted him to ack a milder climate in
this section and to accept the superintendency of the Riverside schools. From the
beginning of his work in California his associates throughout the State have recognized his force and insight. At the superintendents' convention at Sacramento in
1890 he was placed at the head of the Committee on High Schools and framed the
recommendations upon which the district
high school law of the State was based. In
1891 he was an active member of the State
cducational convention, and for four years
served as secretary of the State
cduc James and the work of teaching and the special yof physics. He was son called to the cipalship of the River Falls Righ school two years later he was chosen to a processing in the normal school. But so so was the protest of the Citizens that are the appeal they made to the State boritles, that at his own request he was assed to reasoned yof the schools of the ill school. During the past decade he has been intimately connected with almost every important activity of the State, both here and in Wisconsin, especially in projects bearing on the advancement of education.

Commenting on his resignation from the Riverside schools, a paper of that city says: "Prof. C. H. Keyes has resigned the superintendency of the Riverside public schools to accept the presidency of Throop University at Pasadena. It is with sincere regret, undoubtelly shared by every man, woman and child in Riverside, that this announcement is made."

Pasadena is not now regarded as in for-mer years as a winter resort exclusively.

mer years as a winter resort exclusively. The tales of the old settlers to the effect that the summer months are the most delightful season of the year here are believed now, where once they were regarded as altogether without foundation. As a result a comparatively small proportion of the population spend the summer elsewhere. They stay here and are happy in the enjoyment of one of the most delightful hot weather climates on earth. There is nothing but sunshing and clear skies; the heat is tempered by early morning fogs and by breezes from mountain and sea. There are no sunstrokes, no rainstorms, no lighting, no hall, no tornances. Everything is serene and happy, and the person who has not spent a summer in Pasadena doesn't know half of the luxuries of this climate.

This summer will be an eventful one here it will in all probability witness the completion of Prof. Lowe's mountain railroad, the transformation of the Mt. Wilson trail into a wagon road, the erection of the Hotel Green-annex and the Throop University manual training school, the completion of the sewer system, the paying of Colorado street, wonderful-progress in the development of our water system, and numerous other projects of less importance.

There will be nothing dull about Pasadena this summer.

It is reported here that a wild-eyed young explorer from Los Angeles has discovered a "moving glucier" up among the snow-capped mountains of the Bear Valley country where the foot of man never before trod. THE WORLD'S FAIR APPROPRIATION.

THE WORLD'S FAIR APPROPRIATION.

The discussion for and against the appropriation for a World's Fair exhibit. Monday afternoon before the Board of Supervisors, has resulted in a general awakening as to the interests of the county in the matter. The petition presented to the Supervisors protesting against an appropriation of \$7500 for this purpose, and which was liberally signed by the moneyed element of the city, is not only misleading but premature.

The question before the people and the Supervisors is whether or not Orange county will make an exhibit at the World's Fair. According to a bill passed in the last Legislature each county of the State is given the privilege of appropriating a certain amount for this purpose; the amount not to exceed that from which may be raised by a certain per cent. of taxation on the people of the county. The Supervisors may or may not make the full appropriation. So far there has been no appropriation asked for. Will Orange county make an exhibit at the World's Fair? The Supervisors can answer yes, or no, and if their answer be yes, then the question of the extent of the exhibit, or the amount of money in due time.

Owing to the misrepresentation and the prematureness of the petition referred to many men of influence and enterprise who have signed it are placed in a false light before the public. The Tribes reporter interviewed a number of these gentlemen yesterday, and with but one exception they were a unit as to the importance of Orange county being represented at the World's Fair, and said they were heartily in favor of a representation. They said they did not have the matter explained to them thoroughly before, and that they thought with the fact that the Supervisors would have full control of the money that may be raised for the exhibit, the public need have no fears but what it would be judiciously expended.

The Killing of Mrs. McGoldrick at Redondo.

Facts Brought Out by the Coroner at the Inquest Yesterday.

A Warrant Issued for the Arrest of the Man Jacoby,

Had Not Been Captured-The Notorious Meek Family-Mrs. Genry, the Pickpocket.

Yesterday morning Coroner Weldon held an inquest on the remains of Mrs. M. McGoldrick, the woman who died last Saturday night from a gunshot wound she received a week before in the left arm, the gun being in the hands of

a man named K. Jacoby.

At the time of the shooting, and eve up to yesterday, it was believed that the shooting was accidental, but there was sufficient evidence yesterday before the coroner's jury to bring forth this

we dict:

We, the jury, find that deceased came to her death on the 12th inst. from injuries superinduced by a gunshot wound from a gun in the hands of one K. Jacoby, with criminal intent.

her death bed to the effect that she shot herself and that Jacoby was not in the same room with her, but there was evidence vesterday by several witnesses showing that the deceased and Jacoby were together in the same room engaged in a quarrel when the shooting took place.

It was also proved by expert testi-mony that the woman never could have shot herself with the gun that was used. There was also testimony to the effect at THE TIMES office yesterday to say that that Jacoby was living in the house, there is no truth in the charge. that Jacoby was living in the house, either as a boarder or lover, and that deceased ordered him away from the place and they engaged in several violent quarrels. Shortly before the shooting he threatened, not only to kill the woman, but also to shoot everybody about the house who interfered with

him.

He was in the habit of keeping the shotgun in his trunk, but after he was ordered out of the house he took it from the trunk and after loading it he placed it by his bedside, where it re-mained until he got in the scuffle with

deceased: deceased:

Just after the shooting Jacoby was arrested and examined before a justice of the peace of the place for an assault-with a deadly weapon, but there was but little evidence brought out and he was discharged. When the woman died several people who would have kept quiet had she lived came to the front and offered to tell all they knew. The Coroner heard of this when he visited the beach on Sunday, and he then ited the beach on Sunday, and he then decided to postpone the inquest until yesterday, so that all the witnesses might be gathered up. He instructed the local officers at Re-

dondo to keep an eye on Jacoby and not het him escape, but his instructions were not carried out, for the fellow, after attempting to induce one of the principal witnesses not to testify, made his way to this city and has not since

A warrant was issued for his arrest yesterday evening on a charge of mur-der, and several officers started out to look him up, but up to a late hour last night he had not been found. It is sup-

posed that he gave the officer who was watching him the dodge Monday night and has escaped from the city.

Coroner Weldon claims to have a strong case against the fellow and says he will have no trouble to convict him if caught.

MRS. MARY GEARY.

Los Angeles' Late Female Pickpocket to b Tried.

This morning Detectives Bosqui Insley and Wallen will leave for Santa Barbara, where they go to testify in the case of the People against Mrs. Mary Geary, one of the smoothest and and most notorious pickpockets on the coast. The woman operated in this city for three or four years, and not-withstanding the fact that almost

withstanding the late that almost every officer in the city knew her by sight, she managed to flourish and escape detection.

During the flower festival Detective Bosqui was engaged by the Santa Barbara authorities to assist in guarding the visitors against pickpockets and ing the visitors against pickpockets and cattle of that kind, and it was on this trip that Bosqui caught the old hag dead in the act of going through a lady's pocket.

She was promptly arrested, and her trial will commence on this charge to-day. It promises to be a highly sensa-tional trial, as the detectives all over the Coast bave been after her for years.

Bennett Discharged.
The Contra Costa Herald of Saturday states that C. S. Bennett, the con-tractor recently arrested in this city on a charge of embezzlement and taken back to Brentwood for trial, was examined before Judge Carey and a jury

and discharged.

It was also stated at the time of Bennett's arrest that he was a bigamist.

His wife, who is still in this city, called

Criminal Notes. Three warrants were issued from the Police Court yesterday for the arrest of a couple of women and a man, who or a couple of women and a man, who are charged with violating the fire ordinance. The police will do all in their power to enforce this important ordinance in the future, as people seem determined to burn trash in their back yards at all times and under all circumstants.

There was but one drunk in the Po lice Court yesterday. He was given three days in the chain gang.
